

Semester Project Part 1: Topic Selection

Name of Website: Kelly Thao's Portfolio

Description:

- I will creating a professional portfolio to store and display my projects. This project will be created on VScode. These projects will be from my works I've accomplished during my media arts minor and my major. There will be a main page, abouts, resume, projects, and contacts. The main page it will contain the introduction, overview of my skills (technical and soft), a 'what sets me apart' section (using flexboxes like how assignment 3 was built).

Page Names and Additional Notes:
